

GEOLOGICAL OPEN PIT TECHNICIAN **Greenbushes Operations**

Do you want to be part of an exciting mine expansion that is powering the global energy revolution?

Are you looking for a rewarding career that offers the opportunity to live and work in our picturesque south-west?

Talison Lithium, owner of the world's highest-grade hard rock lithium resource, is recruiting now to meet production requirements as part of a \$500M + expansion project.

The Greenbushes Mine is a well-established mining and processing operation incorporating three open pits and two processing plants. As part of a plan to more than double production from Greenbushes, Talison Lithium is constructing a new state of the art processing facility (due to come on line in the second quarter of 2019) with plans in place for a further processing plant to come on line in 2020.

A leading global producer of lithium mineral concentrates for the past three decades Talison lithium is seeking a self-motivated, hands on Geological Open Pit Technician to join an expanding team. This position reports to the Senior Mine Geologist.

Talison will provide all of the appropriate training for this role, opportunities to work with a dynamic team of professionals and scope for the right candidate to grow with the business.

Responsibilities

- Ore spotting;
- Geological markups, shot mapping and sampling;
- Liaise with drill and earthmoving contractors;
- Maintenance of geological equipment and stores;
- Documenting and recording of geological data; and
- Conduct any field activity as directed by Senior Mine Geologist.

For further information, phone (08) 9782 5700.

How to Apply

Please forward your application to jobs@talisonlithium.com including a covering letter, CV, copies of any qualifications and referees.

This is a residential position on a 7:7 roster working a 12-hour shift. You are required to live within 30 minutes of the Greenbushes mine site.

A competitive salary and other benefits will be negotiated with the successful applicant.

Applications close 13 February 2019
