

Mine Production Engineer

Would you like to be part of a mine expansion that is powering the global energy revolution?

Do you want a residential lifestyle?

Talisson Lithium's Greenbushes Operation, a residential mine situated on the world's highest grade hard rock lithium resource in the south-west of Western Australia, is a leading global producer of lithium mineral concentrates.

Greenbushes is a well-established mining and processing operation in the exciting lithium industry. It has three open pits, waste dumps, tailings storage facility and two processing plants with a third processing plant under construction (for completion in 2019) and construction of a fourth processing plant approved by the Board. We are currently recruiting staff to manage the planned expansion.

Reporting to the Mine Planning Superintendent, an opportunity exists for a suitably qualified Mine Production Engineer to join our energetic and multi-disciplined Mining team. As a key member of this group you will play a central role in the development of this expanding long life operation. This is a hands-on role covering a variety of tasks. This challenging position will suit a talented Mine Engineer.

Responsibilities

- Plan, design and schedule production related activities for the open pit;
- Review production performance against plans and budgets;
- Schedule and monitor the development of tailings wall construction and waste dumps; and
- Provide technical direction and coordinate the open pit mining contractor.

Essential Criteria

- Strong safety focus;
- Tertiary qualification in Mining Engineering with 3-5 years mining experience;
- Technical and practical Engineering experience;
- Knowledge of mine economics and environmental requirement;
- Analytical skills to assist budget and forecasts preparation and analysis;
- High level of computer literacy; and
- Excellent verbal, written and technical skills.

Desirable Criteria

- Surpac and Minesched software skills;
- Drill and Blast Engineering experience;
- A practical and well organised approach to varying demands; and
- Good understanding of mining regulations.

How to Apply

Please forward your application to jobs@talisonlithium.com including a covering letter, CV, copies of any qualifications and referees.

For further information, phone (08) 9782 5700.

This is a residential position on an 8:6 roster working a nominal 10 hour day. You are required to relocate and live within 60 minutes travelling distance of the Greenbushes mine site. A competitive salary and other benefits will be negotiated with the successful applicant.
